THANK YOU!

Hello

We wanted to send you A BIG THANK YOU for coming out to see us at WOC 2020 in Las Vegas. We had a great time and glad we were able to connect. The response we got regarding the iQ426HEPA Dust Extractor was more than we could ever hope for.

If you'd like more information on the iQ426HEPA, or any of our products, please feel free to contact us at anytime.

Please visit our Events Calendar for more upcoming events.

WORLD CHAMPIONS!

Congratulations to the first ever 3-Time Specmix Bricklayer 500 World Champions. Fred Campbell (Mason) & Tony Shelton (Tender) (Creative Masonry, Greeneville, TN)

Fred and Tony laid 756 bricks to become the first ever 3-time Specmix 500 World Champions. And in addition to taking home a Ford F-250 4x4 truck, $5000 cash prize and a slew of other prizes, iQ Power Tools was proud to present them with the iQMS362 Dry-Cut Dustless Masonry Saw, to add to their existing iQ Power Tools collection, along with an iQ jacket for those cold Tennessee winters.

Congratulations to the Top Craftsman of the Specmix Bricklayer 500. Darian Douthit (Mason) & Andy Zepeda (Tender) (Providence Masonry, Miami, OK)

The Top Craftsman prize went to repeat winner Darian Douthit and Andy Zepeda. This prize goes to the mason whose wall was voted "most sellable" by a 30-judge panel. In addition to taking home a ROXOR Off-Road side-by-side sport utility vehicle, iQ Power Tools was proud to present this year's winners with another iQMS362 Dry-Cut Dustless Masonry Saw and an iQ branded jacket.

From all of us here at iQ Power Tools, a special congratulations to Fred, Tony, Darian and Andy for being the best and using the best.

About iQ Power Tools

iQ® Power Tools was founded by third generation masons Joel and Paul Guth. We owned and operated successful masonry companies for over 30 years, at times with over 100 employees. Decades of experience taught us about dust problems. It makes a huge mess, it costs a great deal of money, and it's a threat to the health and safety of our industry. We started out building tools to solve our own dust problems, but we realized these problems were affecting all contractors, so we started iQ Power Tools. Today we build smart, tough power tools that eliminate the dust problem. Using iQ®, contractors can clean-cut materials with virtually no dust. For more information, please visit www.iqpowertools.com.
